We need you! Join our global movement dedicated to tackling poverty around the world.

Tackling poverty together

We've been tackling poverty and empowering communities to build better lives for themselves for more than 60 years. But exactly who are we? And what do we do?

Countries where we work

Oxfam works in 85 countries helping 22 million people, whilst empowering communities to lift themselves out of poverty. These are just some of the countries where we are working.

Our vision, values & goals

We believe that in a wealthy world, poverty is unjustifiable and preventable.

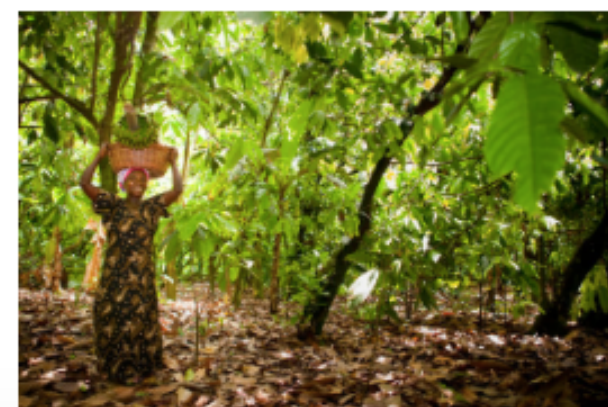

Our people

The strength of our organisation comes from its people – our staff, volunteers, directors, Board and supporters.

Our history

Oxfam Australia was born out of a merger between two leading international development agencies — Community Aid Abroad and the Australian Freedom from Hunger Campaign.

Assessing our performance

We're committed to tackling poverty, but how do we know if we're succeeding or being as effective as we can be?
