

An aerial photograph showing a well-maintained green golf course on the left, with several golfers visible on the fairways. To the right, a dense cluster of small, colorful shanty houses (informal settlement) is built on a hillside, illustrating a stark contrast in living conditions. The image serves as the background for the title text.

Rear Window Economic Inequality

Catherine & Alessandra

our insight

what is economic inequality?

Economic inequality is the difference found in various measures of economic well-being among individuals in a group, among groups in a population, or among countries.

its causes

- labor market outcomes
- globalization
- policy reforms
- extra-legal ownership of property
(real estate and business)
- more regressive taxation
- plutocracy
- computerization, automation and increased technology,
which means more skills are required to obtain a moderate or high wage
- ethnic discrimination
- gender discrimination
- nepotism
- neoliberalism

...and effects

- health
- social cohesion
- social, cultural and civic participation
- crime
- poverty
- war, terrorism and political instability
