mind the GaP

Welcome.

Mission Statement

Mind The Gap is a website dedicated to informing people of the economic status of the world and the too large gap between the wealthy and everyone else.

Mind The Gap provides an interactive info-graph to help people explore and educate themselves on the economic situation, and comparison of different countries around the world.

Always present at the bottom of every screen is the option to sign up for our news letter to get updated information and re-sources in regards to the economy.

Ranking

When selecting the Ranking Menu, you will see multiple economic factors that contribute to the economic gap in the world. Selecting one will provide a focused lens comparing the statistics of all of the worlds countries.

Map Views

Here are two examples of selected filter options: GDP (Average income), Population below poverty line.

**Clicking a country will generate a pop-up that includes the country you have clicked on, the filter of the map, and the statistic. The same information will also be present in the second section of the main navigation bar.**

The third and fourth section of the main navigation bar will also provide the user with general information of the selected coutry such as: capital, population, currency etc.

List View

Selecting the list view option will organize the countries in alphabetical order so the user can focus on the countries individually. Each country will have the coorasponding information (pop-up on map) above its unit.

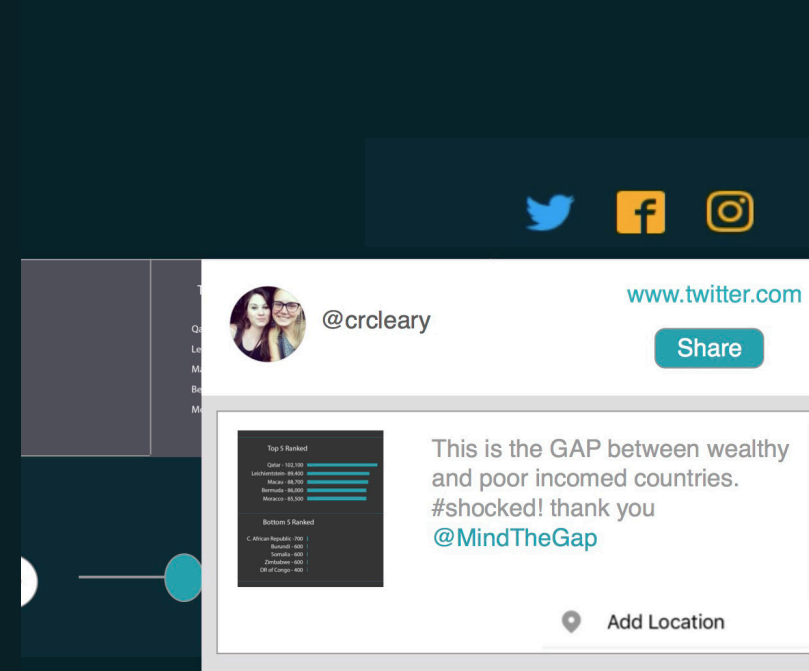

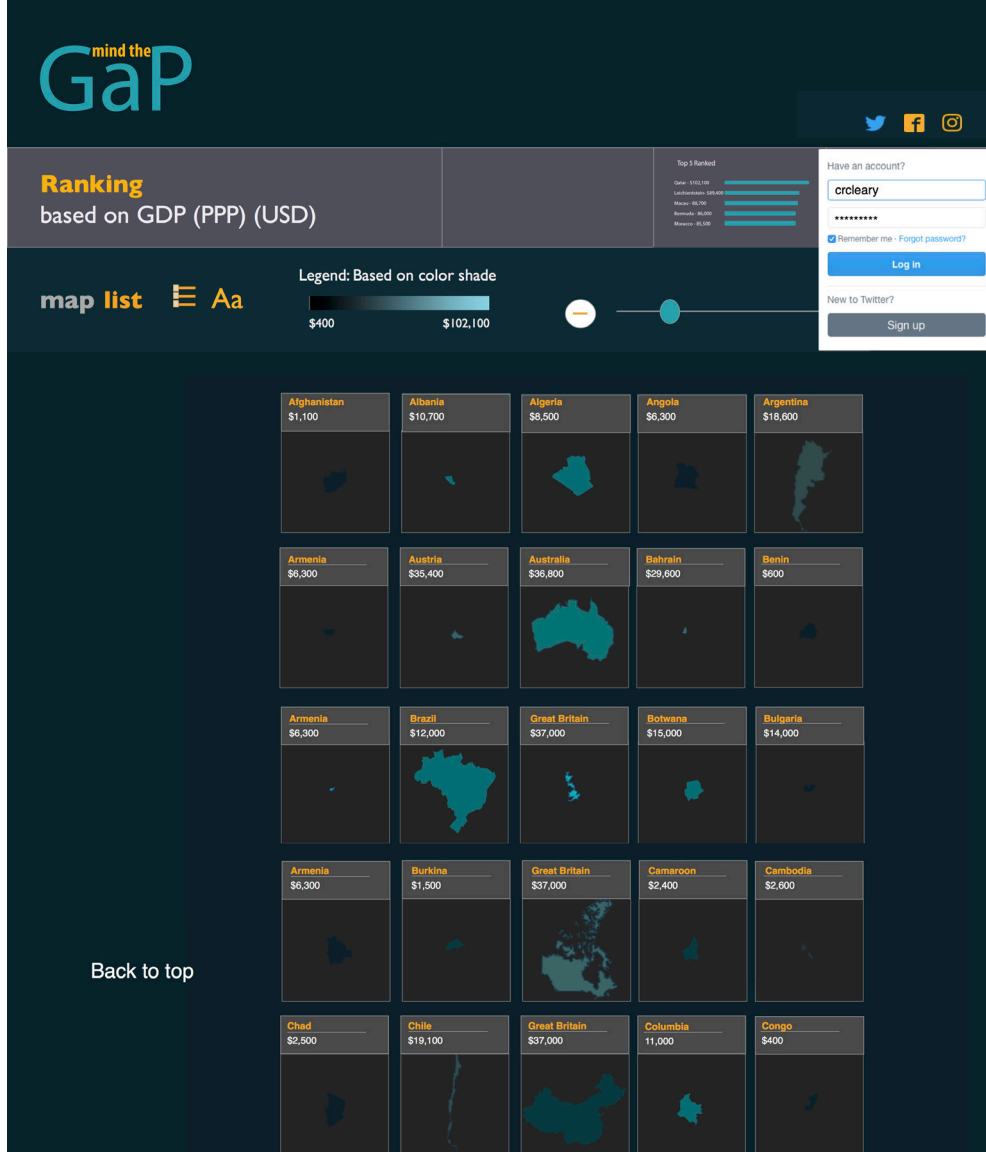

Zoom-In

A varitey of features are included in the sub-navigation bar including a zoom bar. Clicking the plus or minus buttons will zoom into the list view for the user to see a few select countries in more detail.
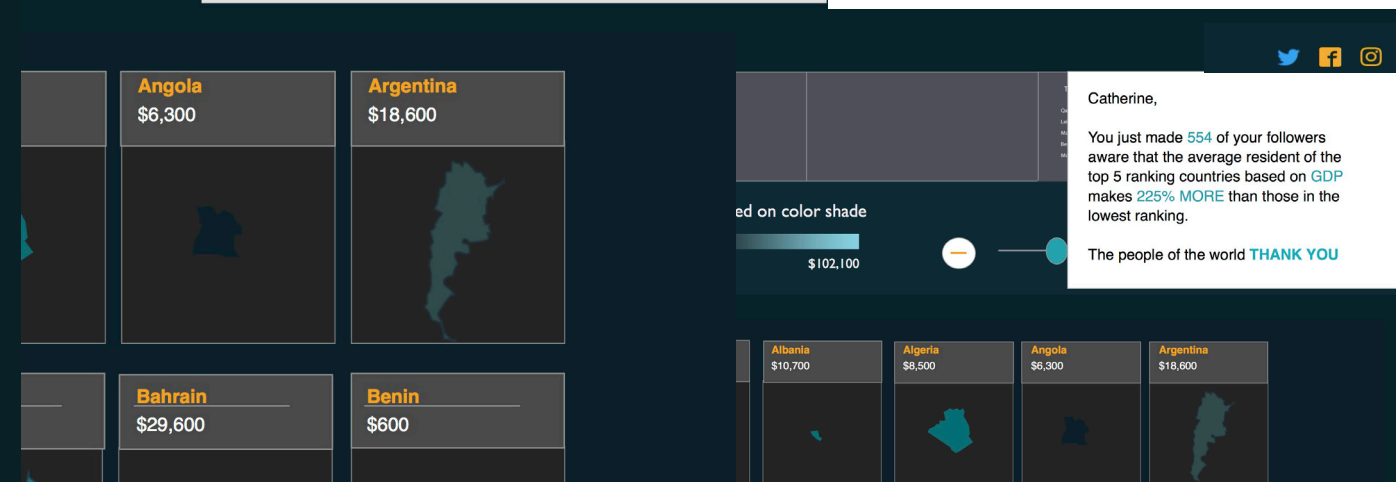

Social Media

Located on the right hand side of the screen above the main navigation bar is the social media menu. The user will see the three main social media sites that they can share information on. Clicking one of these icons will generate a log in pop-up to easily sign into their account without leaving the page.

Sharing

Once logged in, the user will see a generated image of the top 5 and bottom 5 ranked countries displayed in a bar graph for an easy visual to compare the statistics. The user can type a personalized caption for the infograph, signed with our hashtag #MindTheGap.

Once the user shares, a thank you message will pop up giving another statistic about the data they just shared.

| Albania $10,700 | Algeria $8,500 | Angola $6,300 | Argentina $18,600 |

Zoom-In

Using the zoom feature
(located next to the legend)
for the map will zoom into
the map to the level of the
users choice.

View Adjustments

When zooming in, the map will
adjust based on the originating
anchor point.

As the user adjusts the zoom
feature, they can also drag the
map with the mouse to move
entire map help the user find
their point of interest.
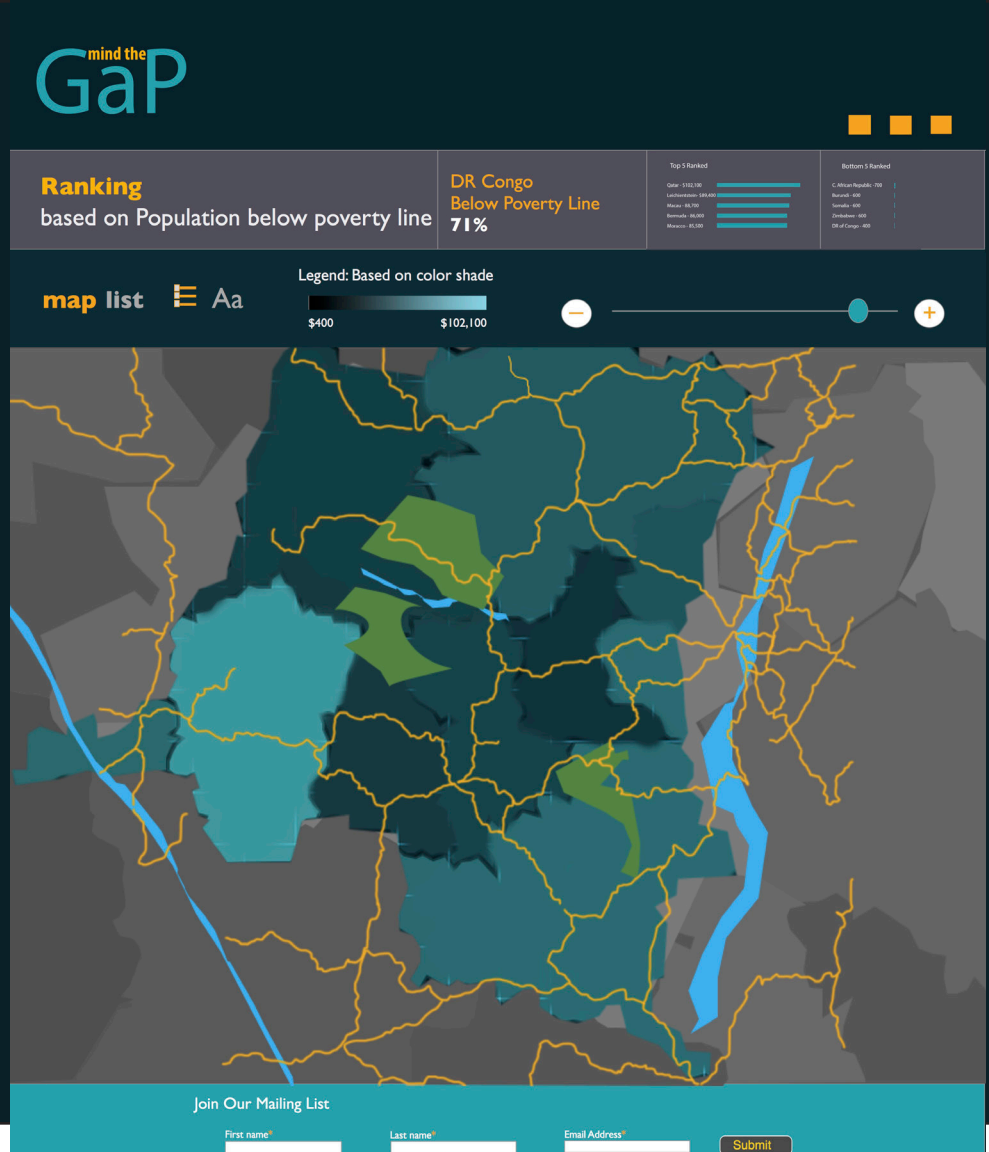

Once the interface registers
a zoom in of a specific coun-
try the map will adjust to a
detailed view of that country
with the surrounding countries
in a grayscale to differentiate
the view. The user can exit this
mode by simply zooming out.

Detailed mode

Once the user enters the detailed mode of the zoomed in country, the cooresponding information can be seen in the second compartment of the main navigation menu.
